1 Introduction

The SVX/HX-1920-PRO controllers are an easy to use high quality DVI-I (VGA + DVI-D) , HDMI & Displayport input interface for LCD panels up to 1920x1200 resolution.

One of the features of the SVX/HX-1920-PRO is the ability to update its firmware as detailed in this Application Note.

IMPORTANT NOTE: Firmware Upgrading must only be done by suitably qualified professionals or technicians. Digital View is not responsible for damage or injury caused by the firmware upgrade procedure.

2 Firmware Upgrade procedure

SVX/HX-1920-PRO firmware upgrade is done by storing the firmware in the USB memory stick and get it update the firmware via USB interface connector.

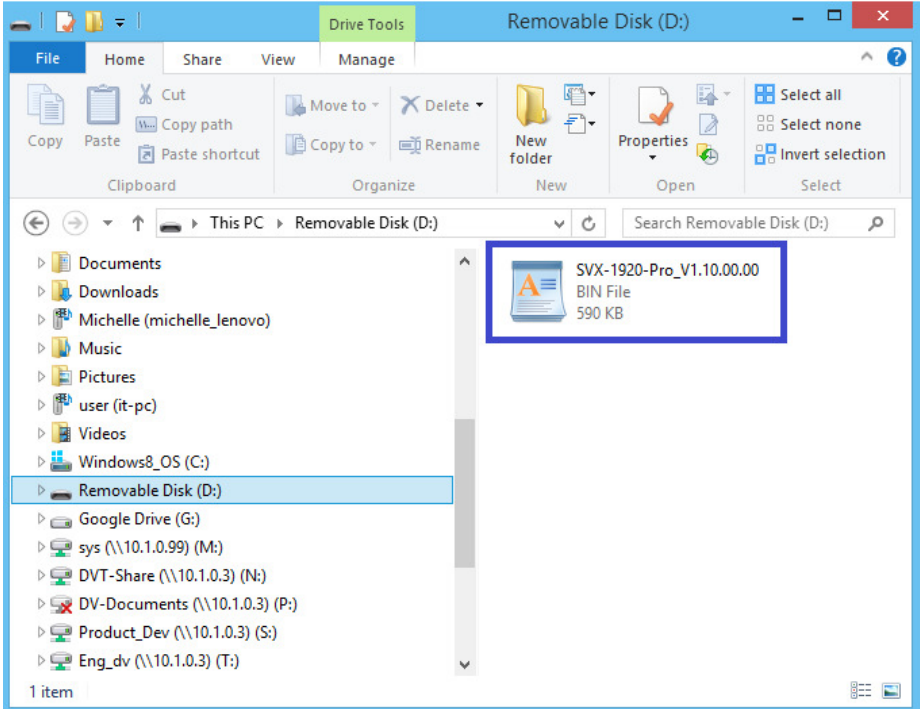

- The SVX/HX-1920-PRO to be upgraded needs to be fully connected with power. This should be a bench or assembly setup and care must be taken to avoid short circuits or electrical shock. **Digital View does not accept responsibility for damage caused during a firmware upgrade procedure** – care must be exercised

Application Note: Procedure to update the firmware (U13) on SVX/HX-1920-PRO board.

Version: 1.20

Date: 23 August 2021
